

Blaster 750R shown with optional equipment.

More power. Greater reliability.

Tailgate Spreaders For Salt and Sand

When you need to quickly spread ice melting material, so you can move onto the next job, get a **Blaster™ Spreader** from Meyer.® This poly tailgate spreader, available in five models, spreads salt or salt & sand. What makes the Blaster unique is a ½ horsepower direct drive motor. The 7 different mounting configurations allow it to fit almost any vehicle.

Most powerful motor available

Meyer 350 & 750 Series Blasters feature an industry-leading ½ hp industrial duty direct drive motor that grinds through large chunks of material to keep you productive even in the harshest conditions.

½ hp Motor design features

- Powder coated frame components
- Watertight connections
- Special shaft seal with press fit double ball bearings
- Stainless steel shaft

Meyer® Blaster™ Spreaders THE RIGHT SIZE, THE RIGHT APPLICATION

350 LB CAPACITY

750 LB CAPACITY

BLASTER™ 350 & 750 FEATURES

- 1/2 hp industrial duty motor
- Low maintenance polyethylene hopper
- Impeller shroud deflects material away from vehicle
- Steel tube construction with welded brackets
- Epoxy coated steel tested to withstand 1,000 hour salt spray test
- Salt only models available (models 350, 750 & 750R)
- 50/50 Salt/Sand models available (models 350S, 750S & 750R with optional vibrator kit)
- Various mounting methods fit a wide variety of vehicle types
- Spread pattern up to 40 feet
- ROC 3/5 year warranty

SPEED CONTROLLER

- Variable speed for precise material spread pattern
- "Blast" mode surges for up to 3 seconds to let you grind through tough chunks of salt or sand and make material flow smoothly and evenly

The industry's best warranty protection

3 YEARS Standard*
5 YEARS On All Structural Steel & Hopper*

OPTIONS: 350 & 750 MODELS

■ Vibrator kit

Part #34600

Spread a 50/50 blend of dry, free flowing #1 rock salt and sand or sand only with the easy to install optional vibrator kit.

Vibrator kit includes:

- Extended auger
- Vibrator
- Vibrator mounting plate
- Baffle plate and vibrator harness

■ Hopper screen

Part # 34700 (2" x 2" mesh)

Part # 34701 (1/2" x 1/2" mesh)

The removable welded steel mesh hopper screen prevents large chunks of material into the hopper and improve material flow.

■ Bumper/motor guard

Part # 36407

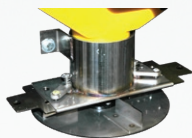

Universal bolt-on accessory for motor protection.

■ Flow gate control

Part # 34800

Provides manual adjustment of material flow.

■ Light kit

With brake light and work light

Part # 34609

(Regular duty work light and brake light)

Part # 34601

(Heavy duty work light and brake light)

- Work light (shown) verifies salt distribution and provides illumination for maintenance
- Rear brake light provides enhanced safety for rear approaching traffic

Model	Part #	Capacity	Material	Vehicle Application	Mounting Method	Warranty	Dimensions	Weight (Empty)	Vibrator Kit
Blaster 350	32000	350 lbs. 5.75 cu.ft.	Salt	SUV, Light truck, ½ ton +	2" receiver (std); Cat. 1, 3 point hitch (opt); Flat Bed Utility Adapter (opt)	ROC 3/5 year	35.5"H x 49"W x 30"D	120 lbs.	Optional
