

## HIGH PERFORMANCE CHEMICALS

# SUPERCON 797 HD

## HEAVY DUTY DEGREASER

### PATENTED DESIGN FEATURES:

- Instantly emulsifies oily soils
- Patented formula — produces fast, economical cleaning
- Solvent free formula — safer for workers and the environment
- Contains corrosion inhibitors — safe on most industrial surfaces and equipment
- Virtually odorless in use

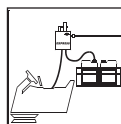

### PROFESSIONAL RECOMMENDATIONS:

- This is an excellent "catch-up" cleaner that will perform best when used regularly
- **USE** "grit" type brushes on your autoscrubber to enhance cleaning on unfinished concrete and other industrial floors
- Overlap your cleaning passes to assure uniform cleaning and "double scrub" when heavy soil is present
- When mop cleaning, change solution frequently to get peak performance. Do not let mop rest in cleaning solution between uses
- **NOT** recommended for removal of baked-on or dried, hardened soils
- use a cleaner that is solvent fortified

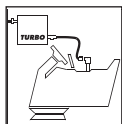

### DIRECTIONS:

Wear safety equipment recommended on MSDS. Read all directions and cautions prior to beginning work. Remove loose soil and garbage. Before cleaning floors, place Wet Floor signs near work area.

Dispense SUPERCON 797 HD into cleaning equipment.

Apply to surface liberally while scrubbing. Allow to work. If soil is heavy, double scrub with an auto scrubber (First pass, squeegee up; second pass, squeegee down, vac on). Pick up as much solution as possible. If possible, allow floor to dry before traffic resumes on cleaned area.
