The Power of Clean

COVERS 61,354 SQ. FT. PER HOUR

70" TURNING RADIUS FOR EXCEPTIONAL MANEUVERABILITY

MANUAL OR HIGH DUMP AVAILABLE

APEX 47 | COMPACT RIDER SWEEPER

APEX 47 | PRODUCT FEATURES

The Apex 47 is a compact rider scrubber with a 40" sweep path and a 47" sweep path with dual side brooms. The Apex 47 Rider Sweeper is designed for heavy-duty industrial use. It's constructed on a steel frame and the panels, made of a synthetic material, are virtually indestructible. The machine has a 70" turning radius and is extremely maneuverable as a result of the directly steered front wheel drive. The sleek, compact design provides an excellent line of sight and results in total operator comfort by focusing on ergonomics. Easy-to-understand controls ensure that the machine is simple to operate. The Apex 47 provides perfect sweeping results due to the large, newly developed main broom with compensation for wear and tear. The robust main broom system consists of the main broom with wrap-around protection and the patented broom holder. This rider sweeper is battery operated with a choice of a hydraulic high-dump or a manual low-dump hopper. The battery compartment are clearly laid out and directly accessible for maintenance and servicing purposes. The seat is also equipped with a safety shut-off switch.

Dust Filter

Operator Controls

Manual Dump

Main Sweep Broom

FEATURES	BENEFITS
Low Dump	Easy to empty with ergonomic handle.
Quick Change Main Broom	Main Broom and holder can be changed without tools, saving time.
Large Diameter Main Broom	Allows for the sweeping of larger heavier debris.
Hopper Volume	Overthrow hoppers fill from the bottom up, maximizing hopper capacity, saving trips to the dumpster.
Dust Control	Large filter area 30.14 cubic ft controls dust.
Maneuverability	Front wheel steering provides 70" turning radius.
Safety Seat	Automatic shut off.
Maintenance Key Lock	Provide security allowing only authorized persons to operate.
High Dump	Easy removal of debris without handling.
Compact Control Console	Easy view and access of all operators functions.
Wet Sweep Bypass	Can be used in damp environments.

APEX 47 TECHNICAL DATA	
Sweep Path (1 Broom)	40"
Sweep Path (2 Broom)	47"
Main Broom Length	28"
Productivity (1 Broom)	61,354 ft ² /hr
Productivity (2 Brooms)	77,500 ft ² /hr
Low Dump Hopper Volume	2.1 cu. ft.
High Dump Hopper Volume	2.1 cu. ft.
Dust Control Filter Area	30.14 cu. ft.
Multi Level Dump Clearance	60"
Turning Radius	70"
Max Speed	4 mph
Climbing Ability	9 degrees
Dimensions (LxWxH)	59"x50"x52"
Weight without Batteries	772 lbs
Weight with Batteries	970 lbs
