PRECISION-TRACK QUAD STEER TRAILERS

ANSWERS FOR ALL YOUR TRANSPORT NEEDS

Valley Craft's newly redesigned Precision-Track Quad Steer Trailers offer versatile customization to meet the most demanding transport requirements. Our unique design enables true tracking within 2", creating one of the most precise tracking trailers in the industry. The trailers wrap around corners and accurately track in the smallest footprint possible with virtually no drift, decreasing the amount of space needed for trailer paths. Our trailers also feature a simple, low maintenance design with the ability for customization to meet specific application needs.

Our Precision-Track trailers offer versatility at its best. Our trailer options empower customers to build their Precision-Track trailer to meet their specific needs. Options include choosing the deck size and capacity as well as wheel, drawbar and hitch groups. If more customization is needed simply contact Valley Craft Customer Service at 800-328-1480 or visit www.valleycraft.com and our engineering staff can help you design the Precision-Track trailer that's right for you.
