

90

Industrial & Commercial
Sweepers

DULEVO
FAYAT GROUP

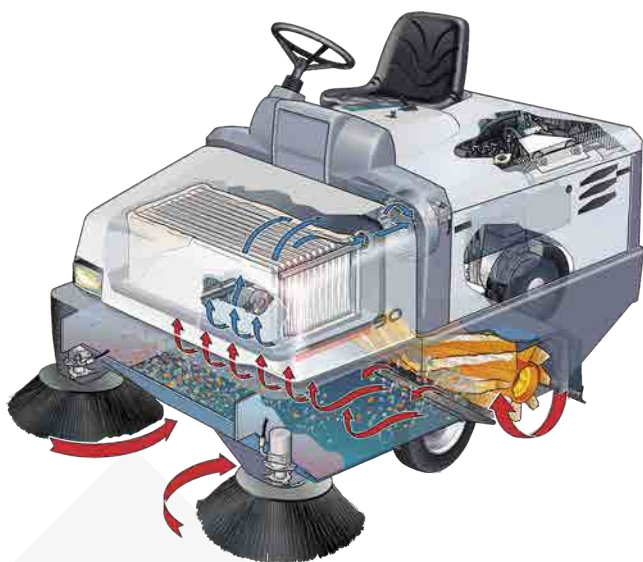

TIMELESS QUALITY THROUGH PASSION

Its small size and great maneuverability make the Dulevo man-on-board 90 perfect not only for outdoor spaces, but also for cluttered indoor spaces, such as in industries, warehouses, parking lots or in the hospitality sector. The Dulevo 90 sweeper has all the features of the best industrial machines: large container, great power, exceptional sweeping performance and a truly high-performance vacuum system.

Designed for the operator

Ergonomics are another key feature of this industrial sweeper. A few simple controls make the machine pleasant and easy to use. The operator operates the sweeper from a comfortable driving position, which allows him to work in comfort even for many hours in a row. Easy access to all components and fully hydraulic technology make the sweeper simple and economical.

Collection system

Collection is by side brushes that convey debris to the center of the machine where the central cylindrical brush throws it at high speed directly into the container. The dust is sucked up and retained in the container by the vacuum created by a high capacity, high head suction fan.

Filtration System

The option of fitting a PTFE membrane filter substantially elevates performance, providing longer life, ease of cleaning, reduced maintenance, increased air flow rate—all for better sweeping quality.

S.B.S. Sensitive Brush System.

DULEVO patent, maintains the ground pressure of the central brush, set by the operator, automatically and quickly adapting it to the ground surface conditions.

Environment

Concern for the environment has always been a key concern for our company. The possibility of choosing different motorizations both electric and endothermic of the latest generation, LPG engine included, combined with dust filtration and the possibility of sweeping without the use of water, are the cornerstones of our philosophy.

Dulevo 90 in brief:

- 2-year warranty.
- Steel frame suitable for heavy duty work;
- Water-cooled engines;
- Power steering as standard, for a more comfortable and enjoyable ride;
- Compaction system inside the body;
- No electronics;
- Easy access to filter for inspection and cleaning;
- Bulky waste door as standard;
- Tool-free replacement of center brush;
- Side brushes automatically lift up when the machine stops;

Technical Data		90EH	90BK	90DK
Power supply		Battery 36V	Petrol / LPG	Diesel
Sweeping width:				
- With main broom	in		35.5 (mm 900)	
- With Rh side brush	in		47.3 (mm 1.200)	
- With Rh + Lh side brushes	in		59.1 (mm 1.500)	
Container volume	gal		89.9 (L. 340)	
Dump height	in		53.2 (mm 1.350)	
Cleaning performance	ft ² /h	96.840	145.260	
	m ² /h	9.000	13.500	
Maximum speed	Mph	3.8 (Km/h 6)	5,6 (Km/h 9)	
Length x width x height	in		80 x 47.7 x 57.3	
	mm		2.030 x 1.210 x 1.455	

Applications*. A wide range of options and accessories, complementing its features, places the 90 at the highest level for versatility and ductility.

Suction filter with PTFE membrane

Left side brush unit

Right side brush casing

Left side brush casing

Front suction hose

Overhead roof

Adjustable seat with armrests

Overhead roof with windscreen

Overhead roof with windshield and rain cover

Non-marking superelastic tyres

Pneumatic wheels with foam

Superelastic wheels
